

In the above screenshot, we are exporting the analytics by touching the share icon on the top left corner. Then the popup of share screen is displayed

Export as PDF

The screenshot shows the IBM Cognos Analytics interface. A 'Share' dialog box is open, displaying the 'Export' tab. The 'Export to PDF' section includes a note about Windows PDF drivers and a link for more information. Below this, there are dropdown menus for 'Page size' (set to 'Letter') and 'Orientation' (with a dropdown menu open showing 'Portrait', 'Portrait', and 'Landscape' options). An 'Include filters' checkbox is also present. At the bottom of the dialog are 'Cancel' and 'Export' buttons. The background dashboard features several charts: 'Sales by Customer' (bar chart), 'Sales by Location' (map), 'Rep. Sales by Sales Rep' (line chart), and 'Received Inventory by Actual colored by Month' (horizontal bar chart). The top navigation bar includes tabs for 'Sales by customer', 'Sales by location', 'Sales by sales representative', 'Received inventory from supplier', 'Inventory stock for warehouse location', 'Sales trend', 'Monthly sales', 'Actual and Receive...inventory by Month', and 'Interactive dashboard'.

we can also export our analysis as PDF to upload in GitHub Repository
